[“CEC” or “the Company”]

MARKET ANNOUNCEMENT

Copperbelt Energy Corporation Plc (“CEC” or “the Company”) is pleased to inform its Shareholders and the general public that the Company has signed a long-term contract to supply up to 78MW of electricity to Metalkol SA (“Metalkol”), a major cobalt and copper tailings reprocessing operation in the Democratic Republic of Congo (“DRC”). Metalkol, which is owned by Eurasian Resources Group (“ERG”), a leading diversified natural resources group, is also a low-cost hydro-metallurgical facility.

The contract, agreed with the Metalkol and DRC’s national electricity company Societe National d’Electricite (“SNEL”), secures electricity supply to Meltakol for up to ten years in two phases.

The first phase, to deliver a total of 62MW, will run until the second quarter of 2019; following which power supply will ramp up to 78MW per year during the second phase and for the remainder of the contract.

The Company’s Managing Director, Owen Silavwe, has described the agreement as a demonstration of CEC’s commitment, agility and promise to meet the specific and unique requirements of customers in Zambia and the DRC market, and a reaffirmation of the Company’s growing partnership with SNEL and the mining community in the DRC.
