COMMENTARY FOR THE HALF YEAR PERIOD TO 28 FEBRUARY 2025

Financial Performance Review

Operating profit for the six-month period ended 28 February 2025 was K907 million, compared to K1.34 billion in the corresponding period last year, representing a 32% reduction. The performance was negatively impacted by increased input cost pressures, notably on energy and agricultural inputs, and the depreciation of the Kwacha. These negative factors were partially offset by improved domestic sales performance.

Total revenue for the period grew by 22% to K3.97 billion from K3.26 billion in the prior period. This growth was driven by higher domestic sales volumes and favourable export price realisation. Domestic sales revenue increased by 33%, supported by strong market demand and good management of sales and distribution costs. Export revenues also benefited from exchange rate movements, although this was partially offset by a 34% reduction in regional export volumes.

Operational expenditure increased year-on-year, reflecting cost escalation in electricity, elevated plant maintenance costs, and targeted manpower investments to support a successful start-up of the 2025/26 crop and crushing season. Additionally, higher fuel prices and the depreciation of the Kwacha during the reporting period contributed to increased costs for key agricultural inputs, including fertiliser, chemicals, and cane haulage. To ensure uninterrupted operations, the business secured imported power to support both agricultural and factory operations. The cost of this power was 67% higher than locally produced electricity which significantly increased energy costs.

The combination of lower cash operating profit and increased capital expenditure led to higher utilisation of working capital facilities, resulting in an increase in finance costs to K20.1 million, up from K12.3 million in the prior period.

Profit after tax for the period was K790 million, compared to K1.08 billion in the corresponding period in 2024. This translated to a 27% decline in Earnings Per Share (EPS), from 341.1 ngwee to 249.6 ngwee per share.

Operational Performance

Cane supply for the period under review declined by 31%, primarily due to reduced yields across both own estate and out-grower operations. Average cane yields dropped by 9% in the period under review relative to the same period last year. This variance is largely attributed to the residual impact of the 2023/24 drought.

As a result, sugar production for the period was 114,839 tonnes, representing a decrease of 32% (or 55,228 tonnes) compared to the prior year. The reduction in output was a direct consequence of the lower cane throughput experienced during the period.

Directorate

The following Board changes were made during the period under review:

Ms. Susan Mabaleka Mkandawire Mulikita was appointed as an Independent Non-Executive Director of the Board on 26 February 2025, subject to ratification at the next Annual General Meeting.

Mr. Lekani Katandula was appointed as a Non-Executive Director of the Board on 1 April 2025, subject to ratification at the next Annual General Meeting.

Ms. Amanda Venters resigned from the Board as a Non-Executive Director on 31 March 2025.

Outlook and Strategic Developments

Cane supply for the 2025/26 season is expected to improve, supported by more favourable weather conditions and the anticipated stabilisation of electricity supply from ZESCO. Enhanced factory reliability, following extensive maintenance works undertaken during the off-crop period, is also expected to support improved production efficiencies.

Market demand remains strong, with sustained momentum anticipated in both domestic and regional markets. However, input costs are expected to remain under pressure due to exchange rate fluctuation and elevated inflation levels, particularly in relation to imported production and agricultural inputs.

In line with its long-term growth strategy, the business has commenced the implementation of the K1.72 billion Twazabuka Project—a major investment to construct a modern packing plant and warehouse at the Nakambala mill. This strategically significant and transformational project is aimed at enabling year-round packing capability, strengthening food safety standards, improving product availability and flexibility to meet customer demand. The project is also expected to deliver wider socio-economic benefits through job creation, increased support for local suppliers, and a meaningful contribution to Zambia's economy through increased tax revenue.

Dividend

No interim dividend has been declared for the half-year period as the Board has prioritised financing operational and capital requirements.

By order of the Board

Harriet Kapekele - Katongo Company Secretary
